Your Comments:

Dear EPA ~ Your job is to protect the natural environments that people depend on for survival! Weak standards and laws to clean up toxic pollution in our rivers are unacceptable! The companies that pollute our air and water have the responsibility to clean it up! The EPA and DEQ must insist on 75% to 100% clean up of toxic pollution in the Willamette River Superfund Sites!

Anything less is unacceptable! Clean up creates jobs! Someone has to do the work! I do not support the current Willamette River draft cleanup plan and insist you go back to the table and create a better plan for our city and its citizens!

Thank You!
